

Take Your Efficiency to the Next Level with Rhino Technology

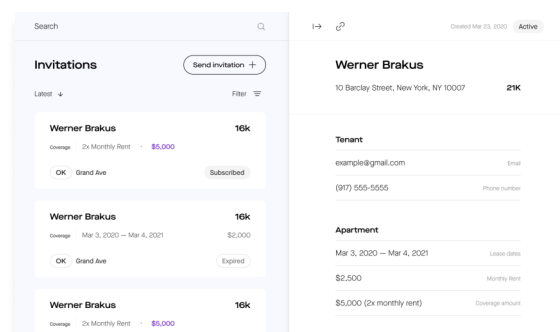

Deposit alternatives make life easier for your residents. You can make life easier for your team with an all-in-one platform for managing their Rhino policies. Control your residents' experience from move in to move out with tools that keep your team organized and efficient.

The Rhino portal is your centralized home base for resident enrollment, tracking policies, and measuring your properties' growth. We make overseeing your entire portfolio as easy for your team as it is for your residents to enroll.

Stay organized with Action items

Keep your team organized with a policy to-do list that makes prioritization simple.

Seamlessly invite your residents

Invite your residents to use Rhino in seconds, edit invitations on the fly with ease, and track your engagement across your properties.

Leverage data that creates value

Get tailored data from across your portfolio that helps you optimize your leasing process. The more data you integrate with the portal, the more insights you unlock.

Integrate with your Property Management Software

Connect your Rhino portal with your PMS for a seamless experience for your residents and team. We connect with Yardi, Real Page, Rent Manager, & MRI.
